

Supervisor's Report

September 10, 2024

1. I received only one bid for the Software program after advertising and putting it out for bid, according to our procurement policy. Williamson Law was the winning proposal. I would like to make a resolution to accept their proposal so we can start training. We should be live in October.
2. I need authorization to sign Change Order No. 1 authorized by NYS Department of Health, regarding the Town of Hermon Water System Improvements Project.
3. I need authorization to sign Pay App. #6 for our Water project.
4. We need to schedule a public meeting for next month so any interested residents can come in and ask questions regarding the water project. This meeting will be advertised and posted.
5. To keep within grant guidelines for our water project our rates will need to increase a total of \$50 by the end of next year. This can be done by doing a \$25/year raise this year and again next year or all at once. I am looking for guidance from our Board and residents. We will decide at our October meeting so please get feedback from people within the district for next month.
6. We need to schedule our next budget meeting after approving the salary changes tonight. This meeting, too, will be advertised and posted.
7. We received another \$25,000 from Buddy Fiacco today for the stone pile.
8. We no longer employ William Dashnaw as Budget Officer. He will submit a final bill for his services and has been terminated.

Cathy L. Race, Supervisor
